Subject: Microsoft Settlement

Dear Sirs,

It is of the utmost importance that the greatness by which our society has survived, prospered and revolutionized our modern world, continues today. I ask you - "where would we be today without Bill Gates and Microsoft?"

Should a company be chastised, fined, bludgeoned by the weight of the federal government, strictly for desiring to build a better mousetrap and turn a buck?

We are a society of successful capitalists, not a study in socialism. Please leave the political rhetoric of the previous administration behind and do what is right for America, now more than ever.

Dismiss the case against Microsoft. Focus on what is right for America, and show the rest of the country and the world that it still pays to work hard and prosper in the greatest country in the world.

Sincerely,

Brian Fennell
